

## High-Efficiency Electronic Ballasts

## 25 & 28 Watt Energy Saver

EARTH FRIENDLY  
PRODUCT

### High Efficiency Electronic Ballasts

In an effort to meet rising market demands for energy efficiency, Howard Lighting Products is "going green." Our custom manufactured multi-voltage High Efficiency (HE) ballasts are designed to conserve energy and deliver optimal performance for multiple applications.

### 25 & 28 Watt Energy Saver

Howard Lighting Products is committed to a brighter future. We're doing our part by designing energy-saving lighting that is safer, and preserves the environment. Our TCLP compliant T8 fluorescent lamps are an earth-friendly, economical replacement for standard 32 Watt T8 lamp systems.

Lighting for life.

**Energy Efficient  
Exit Emergency Lighting**

**High Bay  
Fluorescent Fixture Series**

**Self Ballasted  
Compact Fluorescent Lamps**

**EARTH FRIENDLY  
PRODUCT**

**Energy Efficient Exit Emergency Lighting**

Howard leads the way with quality lighting products that deliver maximum performance when you need it most. Our easy-mount Exit Emergency lighting fixtures are designed and constructed for long-life and durability. For lighting that safeguards and improves security, we've got you covered!

**High Bay Fluorescent Fixture Series**

Developing energy-saving lighting products is a top priority at Howard. Our High Bay fluorescent fixtures are low-energy and provide excellent light output, making them cost-effective alternatives to HID lighting systems. With offerings in 4 convenient designs, choosing the right lighting solution just got easier.

**Self Ballasted Compact Fluorescent Lamps**

Go green by replacing incandescent bulbs with our Self-Ballasted Compact Fluorescent Lamps. Howard Lighting Products is revolutionizing the lighting industry with energy-saving technology that lowers your energy costs. We're your one-stop-shop to go green.

**Lighting for life.**
